Reasons for Allowance

1. Claims 1-17 are allowed based on further review and newly updated search.

2. The following is an Examiner's statement of reasons for allowance.

Claims 1-17 recite novel features of an imaging element for an electronic endoscope, comprising at least:

a base;

an image sensor mounted on the base, the image sensor having a light receiving surface and an effective imaging region; and

a predetermined circuit **mounted on the base** for receiving a signal from the image sensor,

wherein the predetermined circuit is arranged along the periphery of the light receiving surface of the image sensor on the base so that a center of the base on the light receiving surface of the image sensor is substantially aligned with a center of the effective imaging region of the image sensor.

The prior art of record fails to anticipate or make obvious the novel features (greater emphasis added on **underlined limitations**) as discussed above.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
